ENVIRO-LUBE

Pneumatic Tool Lubricant

Biodegradable and Environmentally safe...

ENVIRO-LUBE is an industrial fluid that is not just *rapidly biodegradable*, operator safe and made from renewable resources, but *environmentally safe*. When an accidental spill occurs, the risk to the environment is reduced, the risk of liability is minimized and negative media coverage can be avoided.

- ◆ Creates a lubrication film that can withstand extreme pressure and any continuous movement caused by piston or rotary pneumatic tools.
- ◆ Not affected by a wide variety of chemicals, petroleum solvents and distillates.
- ◆ An excellent environmentally safe oil, **ENVIRO-LUBE** is suitable for use in all types of pneumatic equipment and tools. Extending tool life by five fold under extreme conditions.
- ◆ 100% non-toxic, reduces potential for skin, eye and lung irritation.
- ◆ **ENVIRO-LUBE** reduces oil consumption by up to one-third (superior bonding properties), hence longer air tool life.

Typical Properties.....	ENVIRO-LUBE
Specific Gravity g/cm ³ @ 25°C.....	907
Kinematic Viscosity: 40°C..	46cST
100°C.....	8.42cST
Viscosity Index.....	202
Flash Point.....	292°C/558°F
Four Point.....	-36°C/-33°F
Heavy Metals.....	None
Active Ingredients.....	5% - 10%
LC50 (PPM).....	>10,000

The AirPro Difference

- ◆ Proprietary process and additive packages.
- ◆ No synthetic or petroleum carriers.
- ◆ Based on a unique technology that has consistently out performed conventional lubricants for over 16 years.

500 ml.....\$10.00

1 litre.....\$18.00

4 litre.....\$54.00
